

# GENERAL MEETING and Annual Christmas Party!!

TUESDAY  
December 2nd 1997  
8:00PM

San Leandro Community Library  
300 Estudillo Avenue - San Leandro

Santa's checking to see if you've been  
calling the SLCC BBS!!

Inside the 6502 West @ 510+895-8022

SLCC  
P.O. BOX 1506  
San Leandro, CA 94577-0374

373

09/30/98

## Club Officers:

<b>President</b>	Robbie Bridges (510) 797-5636
<b>Vice President</b>	Peter Chen (408) 259-9642
<b>Treasurer</b>	Glenn Fowler (510) 530-7128
<b>Secretary</b>	Jim Moran (510) 865-6122

### Software Chairmen:

8-Bit	Bob Scholar (510) 232-5330
8-Bit	Terry Stearns TMLWC
16/32-Bit	Glenn Fowler (510) 530-7128

### Disk Librarians:

8-Bit	Glenn Fowler (510) 530-7128
16/32-Bit	

## Special Interest Groups:

Beginners ST	Jim Moran (510) 865-6122
Beginners 8-Bit	Glenn Fowler (510) 530-7128
Beginners Clone	Jim Moran (510) 865-6122

### Journal Staff

8-Bit Editor	Bob Woolley (510) 865-1672

# SLCC DISK OF THE MONTH No. 1512

by Bob Scholar SLCC 8-bit Software Co-Chairman

## D.O.M. DECEMBER 1997 - SUMMARY

=====

The main program on this disk is 'RAMBLIN' GAMBLIN 5' - it uses all of side 2. It will autorun when you boot this side with BASIC (or when you Run the 'SELECT' file with FULMenu).

The front has 3 Games and a DEMO. The 3 are a Text Adventure; a Pinball game; and an arcade-type game.

### ##DIRECTORY of DISK #1512##

Front:- Boot With BASIC!

### 013 FREE SECTORS

## PROGRAM DETAILS

=====

CRIME1 is a Text Adventure which was in the Bellcom library (as #028). The DOC (CRIME.BAS) is in BASIC;- you Run it with FULMenu (I had to edit it slightly). It's copyrighted 10/1981, by SOFTSIDE magazine. You are asked to solve Mrs. Fenwick's kidnapping, & are given full instructions on how to proceed. For 1 player w/KeyBoard.

DBLDECKER.OBJ is a unique 2-table pinball Game, (#281) from the Bellcom library. It's for one to four players with Joystick. If you enjoy pinball, you should really like this version. Incidentally, this is the first time I have added any pinball game to the SLCC library.

SPOOKBST.BAS is a very fast Game, by William Dagle. A program REM says that it was for ANTIC Magazine, but I found no indication that it was ever published by them. I got it from the Bellcom library (#017)- it's noted as 'Based on the popular Ghostbusters'!? The file SPOOKBST.DOC does a good job of explaining the rules of the Game. It was taken from REMs in the program

listing. I recommend playing it on an XL/XE or 800 with ATARI BASIC. If you use TURBO-BASIC, or the US+ Operating system (Ultra Speed+), it will be too fast to be playable. Be patient;- it initializes very slowly!

SUPERHOP.EXE by Douglas Skrecky, is a .DEMO from ANTIC for 8/89, which draws Fractal Patterns RAPIDLY with a runtime version of ACTION! (included in the program). It seems to operate OK with or without BASIC, even though the magazine article does not concur. It's main menu lists the commands and options; including fractal generation and modification; 'zooming' in/out on portions of the pattern; or loading & saving screens to disk (as 62-sector Micro-Painter compatible files).

RAMBLIN' GAMBLIN' 5:- #558 in the OHAUG library; by Bob Graves and Mike Drury (C)1983 for MicroMate Software. It has DOS, and it will autoboot with BASIC (or you can use FULMenu to RUN the 'SELECT' file). Documentation can be sent to screen or printer. You use the menu to play any of 5 games or to play RAMBLIN' GAMBLIN' itself;- just follow the screen prompts. [NOTE: I put it on single density- from Enh.]

## Meetings & Such

President Robbie Bridges called the November 4, 1997 meeting to order at the stroke of 8. All other Officers were in attendance.

The continuing main subject was where are we going to meet. The closing of the library is upon us and no suitable place has been found. Unless someplace shows up soon we will be forced to meet at Robbie's house in Fremont. Actually he is really looking forward to this and will probably have us all for dinner before the meetings. Best thing about Robbie's place will be the cable modem that he just had installed. That should make for some great demos. The only other place that is available is Woolley's place. The drawback there is the eleven people, four dogs, and five cars that are already living there. Just to be fair Glenn also offered his place but his truck will only seat four people comfortably.

The Xmas party will be held at the December meeting as usual. If memory serves me right Peter Chen will be in charge so be prepared for a real feast. Probably dried rice and fish heads served in some of his beloved bagel boxes.

The raffle prizes for the nights Crooked Raffle are really first class. Jim King must be cleaning out his most cherished possessions, he donated an original 800 computer and a matching 810 drive. A hard drive and much software is also included in the raffle.

The 8 Bit demos were by that great game player Bob Woolley. (He hasn't won one yet.) Bob selected a number of games and did a short demo on each. Everything considered they were some of the better games, well done and entertaining.

The long missing Jaguar banner has shown up and been returned to its usual position on the wall. Maybe Don can keep track of this one. Speaking of Don, he gave another 64 Bit report. Three in a row, a blooming miracle.

The crooked raffle was held and of course the guy with the four dogs took the 800 setup. Oh well maybe my turn will come next time.

Having run out of things to do the meeting was adjourned at 9:30.

Jim Moran - Secretary

## Such

The most important new thing this month is the singing my hard drive is doing as I type this. Looks like my poor old computer will get its fourth new hard drive very soon. The last two ran out of room and had to be replaced. The one in the computer now was almost full anyway, it is only a 1 gigabyte drive so replacing it was only a matter of time. I wouldn't mind changing the drive except on this particular computer the motherboard has to be removed first. (My next computer will have zippers on the drives.)
